

**AGENCY TELECOMMUNICATIONS REPRESENTATIVE  
BULLETIN 2007-13  
REMINDER  
July 12, 2007**

**SUBJECT: Transitioning Long Distance from CALNET I to CALNET 2**

As the transition process continues from CALNET I to CALNET 2, AT&T is preparing to transition all long distance calling from the Department of Technology Services (DTS) Consolidated Centrex locations. These locations allow the users to dial "8" and then a 10-digit number, or the 7-digit CALNET number.

With the conversion to CALNET 2, it will no longer be necessary to dial "8+" for CALNET access and the CALNET prefix will no longer be applicable to this service. Long distance calls will require customers to dial "9" and "1" plus the 10-digit number. The calls will automatically be routed to achieve the best possible rate. After the conversion, a user dialing "8" will hear the message "this call cannot be completed". Simply redial the call using "9" and "1" plus the 10-digit public number.

The conversion is scheduled for Saturday, July 14, 2007, and will only impact state agencies. Users may experience no dial tone intermittently during this cutover. Please note the San Bernardino and Long Beach Consolidated Centrex locations in Verizon Territory will be converted at a later date. To view the complete CALNET transition schedule, visit our CALNET Transition Homepage at <http://www.dts.ca.gov/stnd/calnet-transition.asp>

If you have any questions regarding this ATR Bulletin, please contact a DTS Representative at (916) 657-9150, or send an e-mail to [STNDhelpme@dts.ca.gov](mailto:STNDhelpme@dts.ca.gov).

A handwritten signature in black ink that reads 'Wes Nitta'.

WES NITTA, Acting Deputy Director  
Statewide Telecommunications and Network Division
